As today's business landscape is rapidly developing, success goes beyond simply responding to change. It is about shaping the future with proactive innovation, adaptability, and a deep understanding of evolving industry needs. As businesses face increasingly complex challenges, they seek partners who provide more than just products, but also comprehensive, customized solutions backed by exceptional service. This is especially critical in sectors like security and identification, where trust, performance, and technological advancement are essential.

In this landscape of constant transformation, ScreenCheck stands out as a key player. Recognized as MENA's leading value-added distributor, ScreenCheck has built a reputation for combining global expertise with local insights, offering a unique mix of top-tier products, value-added services, and continuous innovation.

Meeting the Demands of Modern Businesses

"At ScreenCheck, our long-term success is deeply rooted in the relationships we build with our vendors, customers, and employees. We are, above all, a people-first company. By investing in our employees and fostering strong connections with our customers, we've created a culture of trust and shared growth. Our commitment to understanding and addressing regional needs allows us to introduce the latest technologies and innovations from our global partners in a way that aligns with the unique requirements of each region. At the heart of what we do is a simple promise: to ensure everyone, everywhere feels secure", says Faisal Mohamed, CEO of ScreenCheck.

What sets ScreenCheck apart is its unique ability to meet the diverse needs of its clients. As one of the very few distributors in the market offering an extensive range of security and identification solutions, ScreenCheck has positioned itself as a trusted partner for businesses across industries. With a focused approach to physical security and identification, the company provides a broad array of products, including access control systems, video surveillance, visitor management solutions, RFID, and ID card printers.

With over 25 years of industry expertise and partnerships with 25+ leading global brands, ScreenCheck serves over 500 partners across more than 35 countries, providing extensive market coverage. The company has earned the trust of integrators and businesses by offering customized solutions that integrate a wide range of security products. Each solution is designed with customization in mind, providing integrators and businesses the flexibility to meet their unique needs.

Serving as a one-stop destination for premium security and identification products, ScreenCheck works closely with resellers and system integrators, ensuring a seamless experience from product selection to implementation. By partnering with globally renowned brands like Suprema, Zebra, Evolis, Entrust, Nedap, Virdi, and many others, ScreenCheck guarantees that its solutions meet the highest standards of quality and reliability, addressing the specific needs of sectors ranging from government and education to healthcare and data centers.

Delivering Value Beyond Products

As a value-added distributor, ScreenCheck goes beyond simple product distribution. The company provides an extensive suite of services, including pre-sales support, site surveys, testing, commissioning, and post-sale assistance. Its factory-trained engineers, certified by the world's leading manufacturers, enable system integrators to optimize their offerings, enhancing end-customer satisfaction.

In addition, ScreenCheck simplifies processes for its partners by handling warranty services and RMA on behalf of manufacturers. This streamlined approach not only saves time but also builds trust and strengthens relationships with partners.

Additionally, with significant stock availability, the company ensures that businesses can access high-performance, innovative security technologies exactly when they need them, backed by reliable service.

A Legacy Built on Relationships

ScreenCheck's success is rooted in its commitment to building long-term relationships with vendors, customers, and

employees. By fostering a people-first culture, the company invests in its team and prioritizes client satisfaction. This approach has helped ScreenCheck maintain its reputation as a trusted and reliable partner in the region.

Exciting New Product Launches

ScreenCheck has recently introduced Endura, a range of reliable and durable access control accessories designed to excel in demanding environments. Adding to its innovative portfolio is TANlock, a specialized device for server rack access control. Featuring multiple options such as card and fingerprint, TANlock addresses the growing need for secure and efficient access solutions in the Middle East's rapidly expanding data center market, catering to both mega and micro data centers. Other noteworthy additions include the Suprema BioEntry W3, an advanced access control system, and the CMI Tech EF-70 Iris Scanner, recognized for its exceptional accuracy and reliability in biometric security applications.

Where to Experience It All

These latest innovations will take center stage at Intersec Dubai 2025, where ScreenCheck will showcase and highlight its comprehensive solutions portfolio. Visitors will have the opportunity to explore these groundbreaking technologies first-hand and engage with experts to understand how these solutions can redefine security management.

The event will take place from 14–16 January 2025 at the Dubai World Trade Centre, where ScreenCheck experts will be available at Hall SA, Stand No: SAJ11. Attendees can explore the full range of solutions, from AI-powered access control to intelligent video surveillance and advanced visitor management systems, experiencing first-hand how ScreenCheck is shaping the future of security and identification.

Leading the Way in Advanced Security and Identification Solutions for MENA

In a business landscape where expectations are constantly rising, ScreenCheck sets the standard with its innovation, global partnerships, and client success. By providing accessible, advanced security technologies and integrating cutting-edge solutions, ScreenCheck addresses the evolving challenges faced by businesses, helping them streamline operations and create safer environments. This approach, which blends innovative products, exceptional service, and tailored support, has earned ScreenCheck its position as the MENA region's No.1 value-added distributor. ■
